The Experts In Waterproofing

RUBBER

UNIQUE WATERPROOFING SOLUTIONS

GUARANTEE 25 YEARS

ADVANCED SPRAY APPLIED SYSTEMS

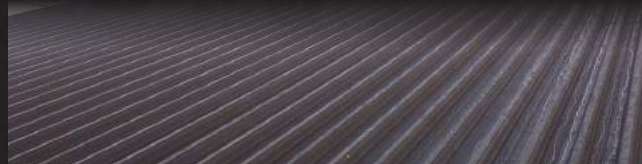

applied up to 1200sq/m per day

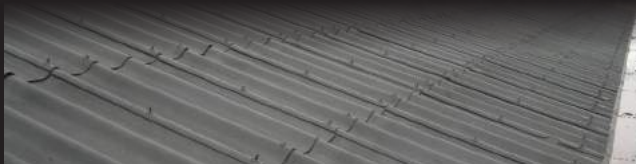

Liquid Rubber Instant Set is a spray applied seamless waterproofing system that can be applied at a phenomenal rate of up to 1200 sq/m per day, that's roughly 500% faster than traditional roofing systems. It has been developed specifically for flat roofs and flat roof refurbishment for surfaces such as felt, asphalt, single-ply, timber and concrete. The adhesive properties of Liquid Rubber make it ideal for consolidating, waterproofing and protecting existing systems

Liquid Rubber's Cladding Over Coating System is the perfect solution for protecting, waterproofing or repairing corroded metal, cut edges, gutters or metal structures. Liquid Rubber fully bonds to the surface creating a waterproof barrier between the metal, rain and air which start the corrosion process, by blocking this we inhibit rust and corrosion from further damaging the roof.

Liquid Rubber Asbestos Encapsulation has been developed to help combat the problems that exist with old, damaged and leaking asbestos roofs. One main concern that we always hear from customers is the extreme costs involved. Our key focus is to provide an alternative solution to the costs of over cladding asbestos, removal and disposal. Asbestos over coating and asbestos roof repair provide real world solutions to today's asbestos concerns.

Liquid Rubber LiquiTANK is a high performing waterproofing membrane designed specifically for tanking and underground waterproofing with built in Radon Protection Technology. LiquiTANK is ideal for internal and external waterproofing and its seamless finish removes any concerns that traditional systems may present in eliminating any joints.

**"Up to 500% faster than
traditional roofing
systems."**

The first phase of this 16,000sq/m refurb project was completed in just six weeks!

Our unique and advanced **INSTANT SET TECHNOLOGY** provided a seamless and fully bonded finish on contact with the surface and was almost immediately shower proof.

THE NEXT GENERATION OF ADVANCED LIQUID WATERPROOFING TECHNOLOGY

available
GUARANTEE **25**
YEARS

CERTIFICATIONS

- European BDA
- Determined according to ETAG 005
 - Compliant to NHBC standards
 - Fully fire tested to EXT. F. AB
- DIN Certification
- Determined according to DD 4055/2011
- Fully Compliant With CE
- Manufactured to BS EN 1504 2:2005
- NHBC Accepted

PERFORMANCE

- Chemical resistance ASTM G20
- 10% hydrochloric acid 10% sodium hydroxide
- Wind up-lift resistance
- 365kPa
- Impact resistance CSB37-GP-56 @ -10°C (I)
- >27
- Minimum tensile strength (BS ISO 9073-3)
- 210N

WHAT IS LIQUID RUBBER?

At its core Liquid Rubber is made of a highly advanced eco friendly polymer, and has become a renowned product within the construction industry for its longevity and hard wearing properties. We continually develop Liquid Rubber within our research and development team to increase upon these benefits to provide the most advanced cost effective waterproofing solutions available on today's market.

ALL PRODUCTS GUARANTEED

All **Ecoproof** products come with a product guarantee as standard, providing you with peace of mind. We offer varying lengths of guarantee, depending on your application and requirements from 10 to 25 years.

TECHNICAL SUPPORT TEAM

We have you covered. Our Technical Support Team are available from 9 am - 5 pm Monday to Friday and are always available to answer your questions, whether it be for pricing or a technical query.

WE ARE ALWAYS IMPROVING

We commit ourselves to continual research & development and always strive to reduce costs and increase performance across our entire product range of waterproofing solutions.

RAPID QUOTATIONS & FULL TECHNICAL SUPPORT

Our team is fully trained and dedicated to providing you with the best possible products and services, we can turn around initial quotations and specifications usually within minutes allowing you to get the pricing you require for you or your clients projects.

We are available from 9am - 5pm from Monday to Friday and have a full team ready to take your call and enquiries. At Liquid Rubber we take our relationships with clients very seriously and will work closely with you to provide you with the solution you require.

SPECIFIERS AND ARCHITECTS

Looking for a specification or need a site visit? Well we can help. We can provide all of the relevant technical data, specifications and certifications you need. Our expert team of office and field technical support representatives can provide on site and on the phone support.

WE GUARANTEE TO BEAT ANY LIKE FOR LIKE PRODUCT QUOTATION!
